At Zen & Sato, sustainability isn't just a trend — it's a promise we've made to ourselves and one we fully intend to keep. We have taken comprehensive measures to minimize our environmental impact and promote a regenerative future.

From complete water utilisation, to achieving zero waste to landfill, and the full use of renewable energy sources — our actions speak for themselves.

CARBON HEALING HOME

Every carbon healing home is designed to give back to the earth through four very special features.

SPONGE EFFECT

Designed to utilise every drop of water.

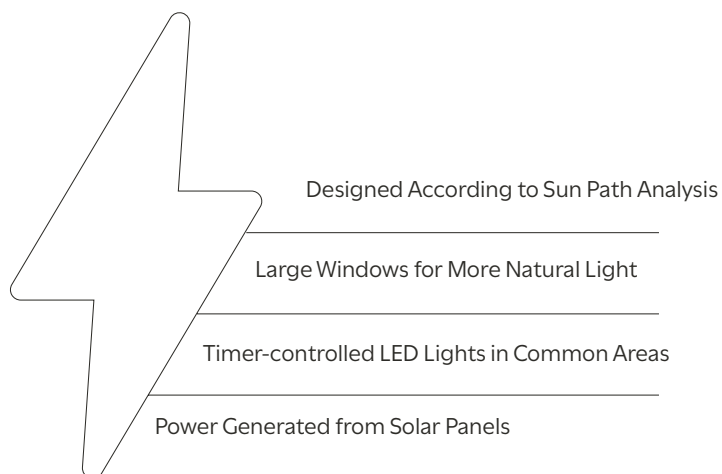

Smart water systems reduce your utility bills while keeping your home future-ready. It's comfort, savings, and sustainability - built in.

ZERO OUT

Zero waste to landfill.

800 kg of organic waste is converted to manure in the organic waste converter.

SMART POWER

Total utilisation of renewable energy sources.

Here, power is generated from solar panels. In addition, the project is designed according to sun path analysis to maximise natural light for less dependency on the artificial.

CLIMATE CAPSULE

Higher green cover for lower temperatures.

With more green cover, Zen & Sato will have a considerably lower temperature than the city beyond its walls.

STRUCTURE

Seismic-resistant RCC structure using system formwork with concrete walls in main building and RCC framed structure up to ground floor, clubhouse and other amenities with block work and plastering.
